Cefa SID *Cefadroxil*

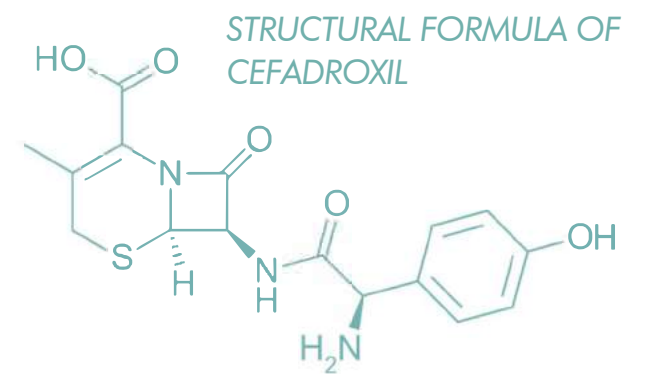

Cefa SID is an antibiotic based on Cefadroxil indicated to fight infections caused by Gram+ and Gram- bacteria in dogs and cats.

Cefadroxil belongs to the family of cephalosporins, a group of B-lactams that acts by interfering in the synthesis of the peptidoglycan cell wall leading to the death of the bacteria, exerting a bactericidal effect.

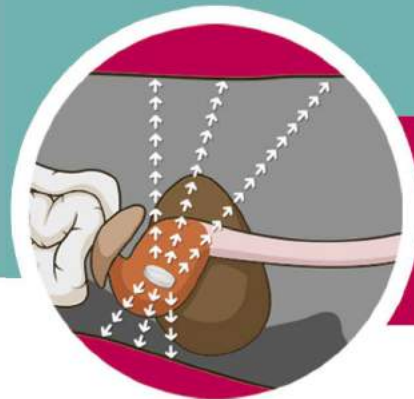

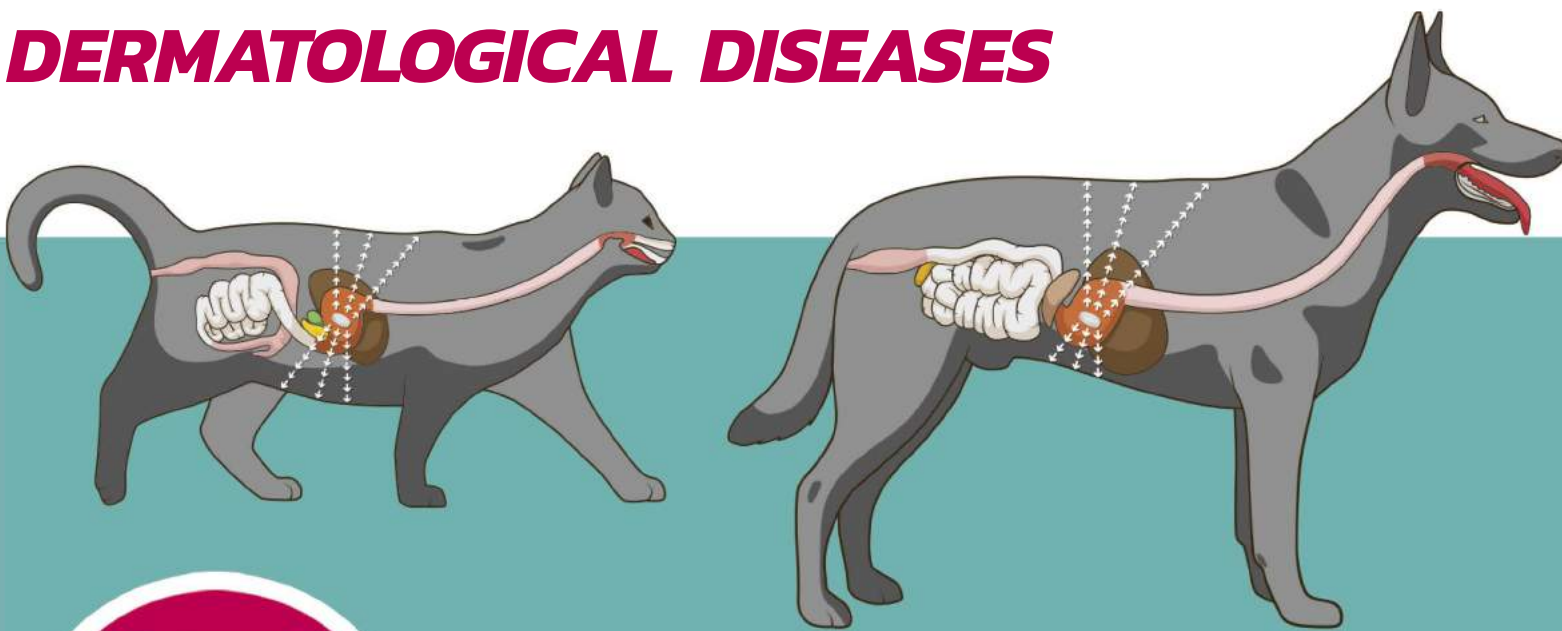

SOLUTION IN SINGLE DAILY DOSE

Cefa SID bioavailability have a longer average life in the body, thus reaching higher concentrations than other cephalosporin antibiotics.

- Cefadroxil is the **FIRST** indication in the treatment of dermatological diseases.

HIGHLY EFFECTIVE AGAINST DERMATOLOGICAL DISEASES

Excellent absorption: oral distribution in all soft tissues, including the skin, due to its liposolubility.

Cefa SID, BEST COST-BENEFIT

ACTIVE INGREDIENT	Cefa SID-CEFADROXIL	CEPHALEXIN	CEFOVECIN
Administration	Oral Use (palatable tablets)	Oral Use (tablets)	Injectable (high cost)
Pharmacokinetics	Half-life 1h to 2h	Half-life 1h	Half-life 5,5 days (use is not recommended for empirical antibiotic therapy)
Pharmacodynamics (absorption)	Does not change with food	Slightly slow when administered with food	✗
Daily dose	Single: Every 24 hours	Multiple: 6h/6h or 8h/8h or 12h/12h	Single
Features (Coated tablets)	Coated and grooved tablets	✗	✗
Indication	Dogs and Cats all ages	Dogs and Cats all ages	Dogs and Cats from 4 months

Cefa SID IS SAFE, PRACTICAL, AND EFFECTIVE!

- 1 **DERMAL INFECTIONS**
- 2 **INFECTIONS IN THE GENITOURINARY SYSTEM**
- 3 **PRE AND POST OPERATIVE PERIOD**
- 4 **ORTHOPEDIC AFFECTIONS**

DOSAGE AND ADMINISTRATION:

Administer 22 mg orally for each kg of weight once a day.

In severe cases, the daily dose can be doubled safely, in which case treatment twice a day is advised.

Changes in the administration and dosage must occur depending on the severity of the condition, always at the discretion of the Veterinarian.

Cefa SID 110 mg:

Weight	Dose
2.5 kg	½ tablet
5 kg	1 tablet
7.5 kg	1 and ½ tablet
10 kg	2 tablets

Cefa SID 220 mg:

Peso	Dose
5 kg	½ tablet
10 kg	1 tablet
15 kg	1 and ½ tablet
20 kg	2 tablets

Cefa SID 440 mg:

Peso	Dose
10 kg	½ tablet
20 kg	1 tablet
30 kg	1 and ½ tablet
40 kg	2 tablets

Cefa SID 660 mg:

Peso	Dose
15 kg	½ tablet
30 kg	1 tablet
45 kg	1 and ½ tablet
60 kg	2 tablets

Cefa SID features grooved tablets to better match the dose to the animal's weight.

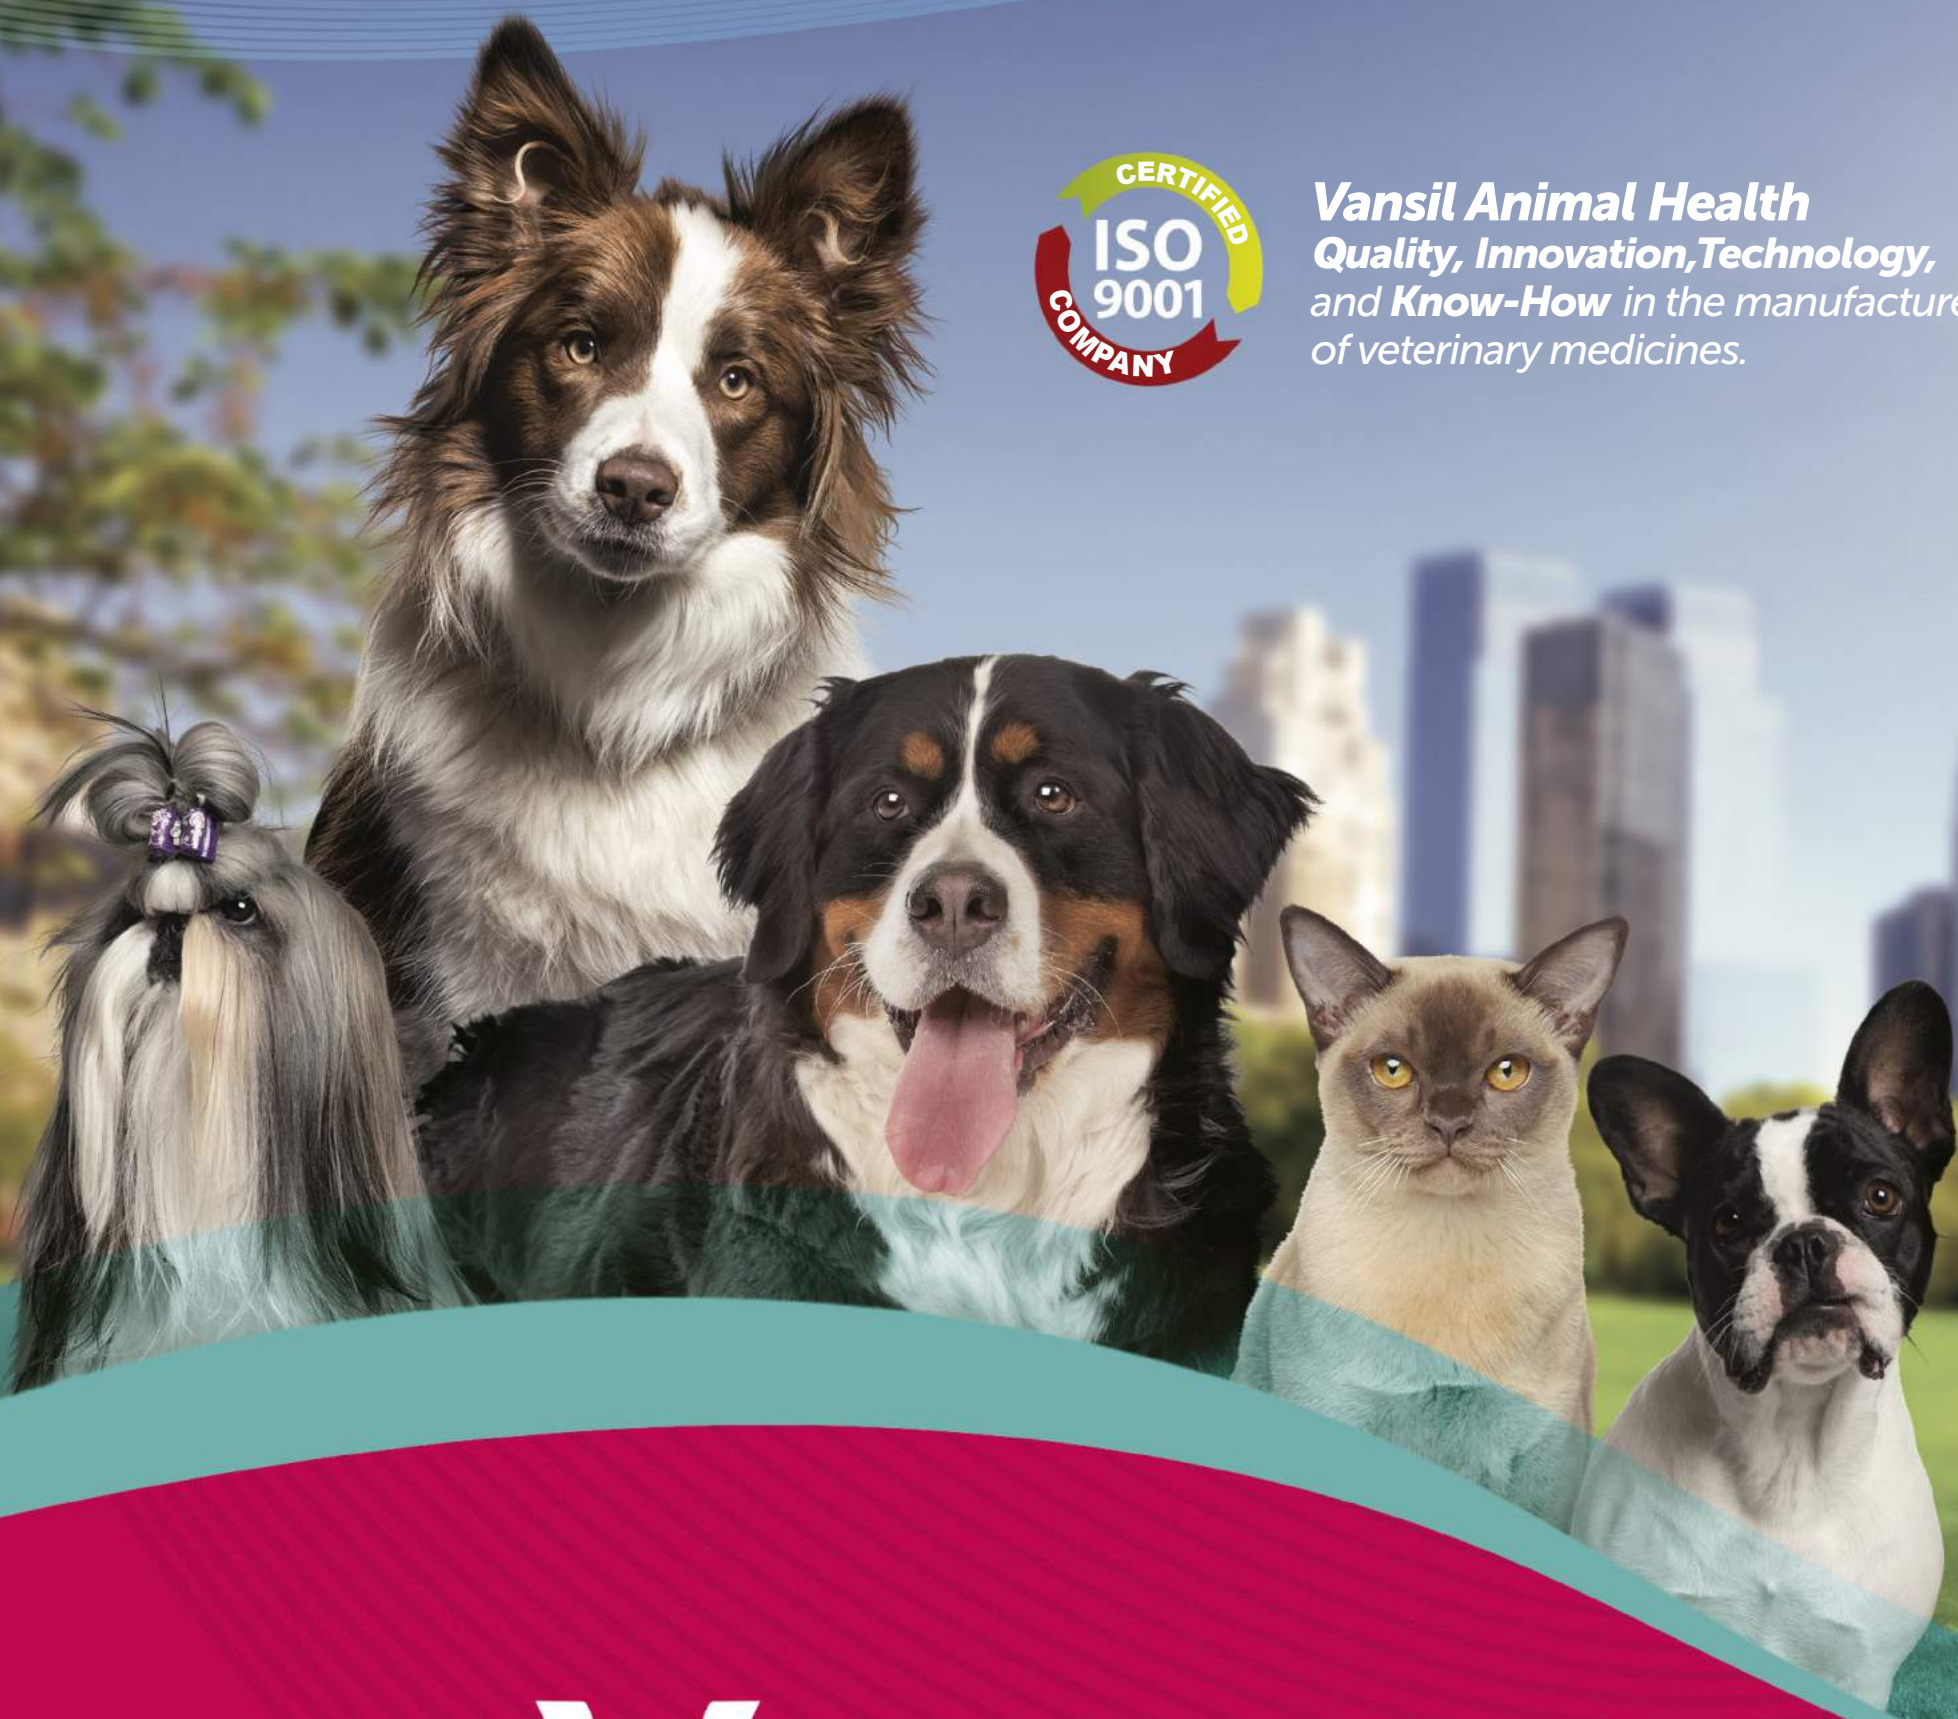

ADVANTAGES AND BENEFITS

- ✓ Broad-spectrum antibiotic, indicated in the various infectious processes, with its main indication in the treatment of dermal infections;
- ✓ Once daily, SID. Greater convenience and ease in treatment;
- ✓ Cefadroxil has a different structure than other cephalosporins, giving a longer average life and greater concentration in the body;
- ✓ Excellent safety profile for dogs and cats of all ages;
- ✓ It has 4 forms for easy administration;
- ✓ Coated tablets, ensuring low occurrence of undesirable gastrointestinal effects;
- ✓ It can be administered alone or mixed with food – it does not interfere with its bioavailability.

DOSAGE FORMS

- ✓ Cartridges containing 10 tablets in containing 110 mg, 220 mg, 440 mg, and 660 mg.
- ✓ Displays containing 100 tablets with the same presentations.
